Other controllers	Control lever, zoom rocker, focus dial, user buttons x 5, dials x 14 (including focus dial), up down left right select buttons	Control lever, zoom rocker, user buttons x 2, dials x 3

KEY FEATURES OF RC-IP1000

17.78cm Touch Panel

Navigation on the large 17.78cm touch panel is a breeze with the intuitive operation screen and the vivid images it displays. Be the master in full control of this seamless and immersive experience as you command your remote PTZ camera at ease.

Simultaneous Settings for Multiple Cameras

Take efficiency to the next level by seamlessly grouping multiple cameras, allowing you to collectively assign movements and settings in one streamlined process. Furthermore, you can use the multi-preset function to effortlessly configure each camera, enabling instantaneous execution of presets encompassing a combination of functionalities*, including zoom and focus.

*These features vary on individual cameras.

Easy Camera set up without a PC

Setting up of both camera and controller without a PC makes it hassle-free! The RC-IP1000's camera search function can smartly locate and register new cameras via the LAN. It can change all system settings of up to 200 connected cameras such as IP address, ID, and password.

“The RC-IP1000 extends its control capabilities beyond Canon remote PTZ cameras, providing compatibility with other selected Canon camera models such as C500 Mark II, C300 Mark III, XF605, and EOS C70 via XC/NU protocol.”

Touch Panel Multi Display

Stay focused and have full visibility of up to 9 cameras in multi display panel of 2x2 or 3x3 layout. Simply touch the desired camera on screen and have full control of its operation at your fingertips.

Touch Auto Focus

Pick your focus area on screen to detect the subject's face, eye, or other desired points. This can be easily done via the touch panel or using the directional buttons to specify the focusing target.

Professional Inputs and Outputs

Integration of setup is automatic with the wide range of versatile inputs such as DC 12V XLR, five Serial RJ45 ports, LAN/POE+, USB, HDMI Out, 12G-SDI in/out, and two GPIO D-Sub 25pin channels. The GPIO/SDI connection can be paired with a video switcher to allow immediate synchronization of the camera selected on the RC-IP1000 to mirror that on the video switcher.

PRECISION REDEFINED

RC-IP100

PTZ CAMERA CONTROLLER

Pan, tilt and zoom effortlessly with the high precision RC-IP100. Navigate using the ergonomic multi-function joystick and intuitive touchscreen to control up to 100 cameras over IP.

Control Up to 100 Cameras Remotely

Streamline your remote production like a pro with the multi camera set-up over IP. The RC-IP100 offers control of up to 100 remote PTZ cameras with just one operator and LAN cable.

Manage and Adjust with Fingertip Simplicity

An intuitive 17.78cm touch screen allows easy switching between cameras as well as quick management of focus settings, white balance, shutter speeds and much more.

Perfect Precision with A Multifunction Joystick

A multi-function joystick allows precise adjustment over camera movements and settings while a control grip on top of the stick allows zoom, focus and iris control.

Pinpoint Zooming for The Perfect Shot

A professional zoom rocker enables smooth and precise wide-to-tele adjustments and lets you zoom with the same high degree of control as seen on pro camcorders.

Assign and Refine with Custom Controls

With two user assignable buttons as well as two dedicated function buttons and customizable control knob on the joystick, the user can optimize their setup for a wide range of shooting scenarios.

Manage Up to 100 Stored Positions

Appoint up to 100 pre-set angles per camera using the 17.78cm touchscreen. Utilize the trace function to allow recording of up to ten different movements (pan, tilt, zoom) which can be reproduced at the touch of a button.
