Connect and Share

Smart transfer options with Wi-Fi
Wi-Fi / NFC

With built-in Wi-Fi and NFC*, these DSLRs let you share your pictures with a single tap. Using the Camera Connect app, which is available for both the Android and the iOS platforms, you can save pictures and videos directly from the camera's memory card into your smart device and share it with your friends and family while you're on the go.

Available in both, EOS 1500D and EOS 3000D

Remote shooting
Remote Shooting

These amazing DSLRs bring in a whole lot of amazing features with it, and let you use your smart device as a remote shutter release. With the REMOTE SHOOTING feature, and the Camera Connect app, you can capture the most beautiful pictures and zoom in to subjects through your smart device. Also, you can take group shots with greater ease.

Available in both, EOS 1500D and EOS 3000D

One-touch connection via NFC*

The NFC* enabled EOS 1500D, makes it easier for you to download the app by simply placing your android device in contact with the camera. The moment you switch on NFC* on your smart device and touch it to the NFC* mark on the camera, the download page of the app pops up. However, if the app is already installed, then the NFC*connection will open the home page of the app automatically.

Social Network sharing

These DSLRs introduce you to a whole new world of photographic possibilities. These functions help you to share your pictures or videos on Facebook, YouTube, Instagram and via email, directly from your camera.
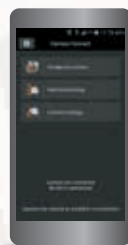

Available in both, EOS 1500D and EOS 3000D

Canon CameraConnect app

Canon Camera Connect is a free application which enables you to transfer images and videos, shot with these DSLRs to Android and iOS devices. Apart from that, it also lets you share these images via email and on the social network.

Available in both, EOS 1500D and EOS 3000D

*EOS 3000D does not support NFC.

When Technology Meets Quality

24.1 MEGA PIXELS CMOS Capture every detail

EOS 1500D's 24.1 Megapixels and EOS 3000D's 18.1 Megapixels APS-C size CMOS sensor helps you capture the fine details that make your picture crisp, vibrant and sharp in terms of quality, colours and focus respectively.

DIGIC 4+ Responsive shooting

With their quick response, these DSLRs enable you to shoot instantly after switching on the camera. The DIGIC 4+ image processor delivers high-resolution results with tonal gradation and great colour reproduction.
Available in both, EOS 1500D and EOS 3000D

ISO 6400 6400 Clarity in low light

With their wide sensitivity coverage, these DSLRs let you shoot in various lighting conditions. While shooting indoors or in low-light conditions, you can use fast shutter speed to capture action and a lot more.
Available in both, EOS 1500D and EOS 3000D

9 point AF Quick focus

The 9-point AF system gives precise and sharp focus regardless of the position you hold the camera. Also it's makes it easy for you to frame and click pictures in landscape or portrait.
Available in both, EOS 1500D and EOS 3000D

Up to 3.0 Frames Per Sec Continuous shooting

These DSLRs make it easy to capture a crucialmoment with their amazing continuous shootingspeed of 3 frames per second. Not only does this feature help you to capture fast-moving subjects or action in good quality, it also lets youpick the best from multiple shots Capture continuousmotion at a speed of 3 frames per second.

Capture continuous motion at a speed of 3 Frames per second

Available in both, EOS 1500D and EOS 3000D

Simple Functions, Great Results

A+ Scene Intelligent Auto Scene Intelligent Auto

As the name suggests, the camera intelligently decides the best settings that will suit your scene type, making it even easier to click beautiful pictures. From portraits to evening landscapes to nature scenes, Scene Intelligent Auto analyses the shooting scene and chooses the settings based on colour, brightness, contrast, movement and distance.
Available in both, EOS 1500D and EOS 3000D

? Feature Guide User-friendly feature guide

The feature guide makes using a DSLR easier by explaining the features and functions of both these DSLRs. A simple descriptionis displayed automatically when a function is selected, helping you to choose settings without getting confused.
Available in both, EOS 1500D and EOS 3000D

Basic+ Function Go beyond basic

Use the Basic+ feature for fully automatic shooting and achieve your desired results with greater ease. This feature lets you decide between various tones like – vivid, soft, warm, intense, cool and monochrome, making you more confident while using boththese DSLRs.
Available in both, EOS 1500D and EOS 3000D

Automatic · Vivid · Warm · Intense

Light & Versatile

Shoot with one hand

Owing to its light weight, these DSLRs can easily be handled with one hand while maintaining a comfortable and solid grip.

Viewfinder shooting

This lets you have a stable-hold on the camera for quickand accurate focus while providing a clear view of the frame.

Live view shooting

The live view shooting mode not only helps in keeping the focus in check, but also lets you view the end result before you actually click the picture.

Available in both, EOS 1500D and EOS 3000D

Unleash Your Creativity

Creative Filters Creative filters

Give a whole new look and feel to your pictures with the five creative filters that come with these DSLRs. These filters help you capture a different perspective, making your final image quirky and interesting.
Available in both, EOS 1500D and EOS 3000D

Fish eye · Grainy B/W · Miniature · Toy camera · Soft focus

EOS Movie FULL HD Full HD movie

Both these DSLRs capture great videos with even greater ease. With a simple click on the recording button, you can capture high-quality videos, which are a testimony of the outstanding performance.
Available in both, EOS 1500D and EOS 3000D

EOS System Accessories Canon EF & EF-S lens range

EOS 1500D comes with the double zoom kit lens (EF-S 18-55mmIS II + EF-S 55-250mm IS II), which offer flexible operation andadvanced optics for great results in videos and images. The biggest advantage of shooting with these DSLR cameras is theready compatibility with the rest of the EOS system of cameras, lenses and accessories. Canon offers over 75 EF and EF-S lenses, allowing you to capture any scene in the best possible light.
Available in both, EOS 1500D and EOS 3000D
