Easy Maintenance and Extended Lifetime Usage

Minimize downtime and maximize productivity while prolonging your printer lifespan with an easily replaceable maintenance cartridge and print head.

Ink Maintenance Cartridge

Print Head

Quick and Mess-Free Ink filling

Rid the possibilities of ink smears during refills with the anti-drip and spill resistant ink bottles. Its unique nozzle and receptacles on both bottles and ink tanks prevent ink from being accidentally refilled into the wrong tank.

Experience high-quality
photographic printing and longevity

PIXMA G670

Convenient and Wireless Mobile Printing Solutions

Print, copy and scan effortlessly using your mobile devices, directly access cloud services, check remaining ink levels, and even make changes to the printer settings remotely with the Canon PRINT Inkjet/SELPHY app.

Create, edit and print personalized items such as ID photos, custom photo layouts, calendars, and postcard designs with the Easy-PhotoPrint Editor app.

Smart Printing

Let your voice be heard with Google Assistant or Amazon Alexa*, you can communicate directly to your printer to perform hands-free printing.

* Requires an active smart assistant account linked and accompanying app enabled, the smart device and printer to be actively connected.

Canon India Pvt. Ltd.

Corporate Office: 7th & 8th Floor, Tower B, Building No.: 5, DLF Epitome, DLF Phase III, Gurugram - 122002

Canon India complies with E-waste Rule to 2016. Please return end-of-life product for environmentally safe disposal. For details visit <https://in.canon/en/consumer/web/e-waste>

Version 9.20/2.0 Q3'2021

Disclaimer:

While efforts have been made to provide accurate information, there could be printing errors, which may have crept in. In the event of any discrepancy, product operation instruction supplied with product will be authentic reference point. Features, specifications, dimensions and prices mentioned in the leaflet, catalogue/brochure are subject to change without prior notice. The product images shown are for illustration purposes only and are not an exact representation of the product.

*1 Warranty is subject to Terms & Conditions. For details, please visit <https://in.canon/en/consumer/web/warrantytermsandconditions>

*2 Printing cost and the page yield for A4 Paper (21.0 x 29.7cm) of G series, visit <https://in.canon/en/consumer/web/terms-and-condition-for-g-series-printers>. The economy mode reduces the black ink consumption by lowering the density. Up to 38% more pages than the standard mode can be printed. For G1020, G2010, G2012, G2020, G2021, G2040, G3000, G3010, G3012, G3020, G3021, G3060 and G4010 The Quantity Per Black Ink Bottle is 135ml and Per Colour Bottle is 70ml. For GM2070, G5070 and G6070 the quantity of per black ink bottle is 170ml and per Colour bottle is 70ml. For G560 and G670 the Quantity Per Black Ink Bottle is 60ml and Per Colour Bottle is 60ml. Page yield may vary depending on texts/photos printed, applications software used, print mode, a combination of the ink tank/ink cartridge size and type of paper used. Using non-genuine inks may affect the printer's performance and/or the print quality. In some rare occasions, although there are no safety issues, using non-genuine inks has caused overheating of the print head and smoke emission from the print head due to the absence of an ingredient found in genuine ink (does not apply to usage of all non-genuine inks). All Yields published as per data available for July 2018. 10%~15% deviation in Yields in within acceptable limits. Print Yields may differ for changes in coverage area, print patterns and print shades. All mentioned print Yields are taken for ideal print conditions as mentioned in the ISO documents. document print speeds are the averages of eSAT in Office Category test for the default simplex mode, ISO / IEC 24734.

*3 Document print speeds are the averages of eSAT in Office Category test for the default simplex mode, ISO/IEC 24734. Photo Print Speed is based on the default setting using ISO / JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.

*4 Apple, etc. are registered trademarks of their respective owners.

*5 Yield mentioned is using ISO/IEC 24712 test file, and ISO/IEC 29102 (for 10.16cm x 15.24cm size) using ISO/IEC 29103 test file values obtained by continuous printing mixed text and graphics on A4 (21.0 x 29.7cm) Plain paper on default mode. Photo yield tested on 10.16cm x 15.24cm standard/borderless mode on PP-201 using Canon standard method referring to ISO/IEC 29102

*6 Yield mentioned is as per ISO/IEC 24711. Values are obtained by continuous printing mixed text and graphics on A4 (21.0 x 29.7cm) plain paper on default mode. Page yield may vary depending on texts/photos printed, applications software used, print mode, a combination of the ink tank/ink cartridge size and type of paper used. Using non-genuine inks may affect the printer's performance and/or the print quality. In some rare occasions, although there are no safety issues, using non-genuine inks has caused overheating of the print head and smoke emission from the print head due to the absence of an ingredient found in genuine ink (does not apply to usage of all non-genuine inks). All Yields published as per data available for July 2018. 10%~15% deviation in Yields in within acceptable limits. Print Yields may differ for changes in coverage area, print patterns and print shades. All mentioned print Yields are taken for ideal print conditions as mentioned in the ISO documents. Document print speeds are the averages of eSAT in Office Category Test for the default simplex mode, ISO / IEC 24734.

*7 Quantity per black bottle -135 ml, per colour bottle -70 ml.

*8 An installed ink tank cannot be removed until the message to replace it is displayed. Print speed becomes slower for the sake of preventing damage of a print head when ink draws to an end (after displaying the ink low message). When scanning or copying a certain volume of documents continuously from the ADF, the printer may switch to 'waiting mode' in which paper feeding stops for several tens of seconds after each scan, in order to prohibit overheating of the paper feeding mechanism of the ADF. The timing of the 'waiting mode' may vary depending on scan settings such as colour/mono, resolution and so on. In case of the default settings (scan or copy in colour, 300dpi), the printer switches to 'waiting mode' after approx. 80 A4 (21.0 x 29.7cm) sheets of paper feeding continuously or repeatedly in short period.

*9 Print speed as per ISO/IEC 24734 in default mode.

Standard Product Warranty on all Laser Printers is of 1 Year Onsite.

**1 Monthly Duty Cycle value provides a means of comparison for product robustness in relation to other Canon laser devices and does not refer to actual image output per month

**2 Toner Cartridge Yield is in accordance with ISO/IEC 19752, ISO/IEC 19798, ISO/IEC 19752/ISO/IEC 19798 is limited to evaluation of toner cartridge yield for toner containing cartridges (i.e. all-in-one toner cartridges and toner cartridges without a photoconductor) for monochrome electrophotographic printers. ISO/IEC 19752:2004 can also be applied to the printer component of any multifunctional device that has a digital input-printing path (i.e. multifunction devices that contain printer components).
