Disclaimers: *Cassette Capacity - 250 sheets (64-105g/m²) & Rear Tray Capacity - 100 sheets (64g/m²). **Print yield is the estimate value based on Canon individual test method using ISO/IEC 24711 (for A4 size) using ISO/IEC 24712 test file, and ISO/IEC 29102 (for 10.16 x 15.24cm size) using ISO/IEC 29103 test file in under ideal print conditions and continuous printing simulation with the replacement ink bottle. Mentioned print yield is from the replacement set of ink bottle and not from the set of ink bottle provided inside the Printer box along with the Printer. The black ink bottle yields 170 ml of ink. For more details, visit: <https://in.canon/en/consumer/pixma-gm4070/product> | Images are for illustration purposes only.

Key features

Easy Maintenance and Extended Lifetime Usage

Minimise downtime and maximise productivity while prolonging your printer lifespan with an easily replaceable maintenance cartridge and print head.

Convenient and Wireless Mobile Printing Solutions

Print, copy and scan effortlessly using your mobile devices, directly access cloud services, check remaining ink levels, and even make changes to the printer settings remotely with the Canon PRINT Inkjet/SELPHY app.

Create, edit and print personalised items such as ID photos, custom photo layouts, calendars, and postcard designs with the Easy-PhotoPrint Editor app.

Quick and Mess-Free Ink Filling

Rid the possibilities of ink smears during refills with the anti-drip and spill resistant ink bottles. Its unique nozzle and receptacles on both bottles and ink tanks prevent ink from being accidentally refilled into the wrong tank.

Smart Printing

Let your voice be heard with Google Assistant or Amazon Alexa*, you can communicate directly to your printer to perform hands-free printing.

* Requires an active smart assistant account linked and accompanying app enabled, the smart device and printer to be actively connected.

Ink Tank Printers For High Volume Printing Print

MRP ₹137 095.00/U incl. of all taxes

1 Year Onsite Warranty*¹

- Print Speed (A4): 43 prints per minute, UFR, PCL6, PS3, Duty Cycle: 150000 prints**¹
- 1 GB RAM, 600x600 dpi, up to 1200x1200 dpi, USB Direct Print
- 550+100 sheets Paper Input, 250 sheets Paper Output, 50 sheets DADF
- CIS Scanner, 600 dpi, PULL, PUSH Scan, 33.6 Kbps Fax
- Windows, Mac and Linux Support

imageCLASS MF641Cw

12.7 cm Touch Screen, GB Ethernet, Wi-Fi and Wi-Fi Direct

MRP ₹47 633.00/U incl. of all taxes

1 Year Onsite Warranty*¹

- Print Speed (A4): 18 prints per minute, UFR, Duty Cycle: 30000 prints**¹
- 1 GB RAM, 600x600 dpi, up to 1200x1200 dpi, USB Direct Print
- 250+1 sheets Paper Input, 100 sheets Paper Output
- CIS Scanner, 600 dpi, PULL, PUSH Scan
- Windows, Mac and Linux Support

*1 Warranty is subject to Terms & Conditions. For details, please visit

<https://in.canon/en/consumer/web/warrantytermsandconditions>

*2 Printing cost and the print yield for A4 paper (21.0x29.7 cm) of G series, visit

<https://in.canon/en/consumer/web/terms-and-condition-for-g-series-printers>

The economy mode reduces the black ink consumption by lowering the density, up to 38% more prints than the standard mode can be printed. For G1020, G2010, G2012, G2020, G2021, G2060, G3000, G3010, G3012, G3020, G3021, G3060 and G4010 the quantity per black ink bottle is 135 ml and per colour bottle is 70 ml. For GM2070, G5070 and G6070 the quantity per black ink bottle is 170 ml and per colour bottle is 70 ml. For G560 and G670 the quantity per black ink bottle is 60ml and per colour bottle is 60 ml. For GX6070 and GX7070, mentioned print yield is from the replacement set of 4 ink bottles (C, M, Y, BK) & each bottle of BK contains 170 ml & 76 CMY contains 135 ml each. Print Yield may vary depending on texts/photos printed, applications or software used, print mode, a combination of the ink tank/ink cartridge size and type of paper used. Using non-genuine inks may affect the printer's performance and/or the print quality. In some rare occasions, although there are no safety issues, using non-genuine inks has caused overheating of the print head and smoke emission from the print head due to the absence of an ingredient found in genuine ink (does not apply to usage of all non-genuine inks). All Yields published as per data available for July 2018. 10%~15% deviation in Yields is within acceptable limits. Print Yields may differ for changes in coverage area, print patterns and print shades. All mentioned print Yields are taken for ideal print conditions as mentioned in the ISO documents. Document print speeds are the averages of ESAT in Office Category test for the default simplex mode, ISO/IEC 24734.

*3 Document print speeds are the averages of ESAT in Office Category test for the default simplex mode, ISO/IEC 24734 Photo Print Speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, print coverage, type of paper used etc.

*4 Apple, etc. are registered trademarks of their respective owners.

*5 Yield mentioned is using ISO/IEC 24712 test file and ISO/IEC 29102 (for 10.16x15.24 cm size) using ISO/IEC 29103 test file values obtained by continuously printing mixed text and graphics on A4 (21.0 x 29.7 cm) Plain paper on default mode. Photo yield tested on 10.16x15.24 cm Standard/borderless mode on PP-201 using Canon Standard method referring to ISO/IEC 29102

*6 Yield mentioned is as per ISO/IEC 24711. Values are obtained by continuously printing mixed text and graphics on A4 (21.0 x 29.7 cm) plain paper on default mode. Print Yield may vary depending on texts/photos printed, applications or software used, print mode, a combination of the ink tank/ink cartridge size and type of paper used. Using non-genuine inks may affect the printer's performance and/or the print quality. In some rare occasions, although there are no safety issues, using non-genuine inks has caused overheating of the print head and smoke emission from the print head due to the absence of an ingredient found in genuine ink (does not apply to usage of all non-genuine inks). All Yields published as per data available for July 2018. 10%~15% deviation in Yields is within acceptable limits. Print Yields may differ for changes in coverage area, print patterns and print shades. All mentioned print Yields are taken for ideal print conditions as mentioned in the ISO documents. Document print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734.

^ Quantity per black bottle -135 ml, per colour bottle -70 ml.

For All MAXIFY Models: An installed ink tank cannot be removed until the message to replace it is displayed. Print speed becomes slower for the sake of preventing damage to a print head when ink draws to an end (after displaying the ink low message). When scanning or copying a certain volume of documents continuously from the ADF, the printer may switch to 'waiting mode' in which paper feeding stops for several tens of seconds after each scan, in order to prohibit overheating of the paper feeding mechanism of the ADF. The timing of the 'waiting mode' may vary depending on scan settings, such as colour/mono, resolution and so on. In case of the default settings (scan or copy in colour, 300 dpi), the printer switches to 'waiting mode' after Approx. 80 A4 (21.0x29.7 cm) sheets of paper feeding continuously or repeatedly in short period.

#2 Print speed as per ISO/IEC 24734 in default mode.

Standard Product Warranty on all Laser Printers is of 1 Year Onsite.

**1 Monthly Duty Cycle value provides a means of comparison for product robustness in relation to other Canon laser devices and does not refer to actual image output per month

**2 Toner Cartridge Yield is in accordance with ISO/IEC 19752, ISO/IEC 19798.

ISO/IEC 19752/ISO/IEC 19798 is limited to evaluation of Toner Cartridge Yield for toner containing cartridges (i.e. All-in-one toner cartridges and toner cartridges without a photo conductor) for monochrome electrophotographic printers. ISO/IEC 19752:2004 can also be applied to the printer component of any multifunctional device that has a digital input-printing path (i.e. multifunction devices that contain printer components).
