Delighting You Always

# PRINT OUTSIDE THE BOX

## WITH CANON MegaTank PRINTERS

RANGE BROCHURE

DECEMBER 2024

# The Brilliance of Canon

**Do more and achieve more with Canon!** Canon Printers have been creating benchmarks with new-age technology and features. Whether it's an all-in-one printer that lets you print from home or a cost-effective printer that enables you to meet the high-volume printing needs of your

business or a wireless printer that empowers you to print from any device, Canon has it all. Inkjet or Laser, a Canon printer can turn your home and office into a productive workspace, a studio, or a creative lab and your business more profitable.

# SOLUTIONS FOR SEAMLESS PRINTING AND CREATION

## GET PRINTS WITH OPTIMUM CLARITY WITH CANON GENUINE PHOTOPAPERS

With high opacity for printing, paper whiteness and premium quality, these photopapers ensure clearer and vibrant color prints.

## CREATE YOUR PERSONALIZED PAPER CRAFT WITH CREATIVE PARK

### Creative Park

Access a wide variety of free printing materials that can be used with compatible Canon printers.

At Creative Park, you will discover a variety of free templates that you can download to transform ordinary papers into beautiful works of art.

Accessible even from your mobile devices, the fun truly never ends at Creative Park!

## CREATING POSTERS MADE EASY WITH POSTERARTIST LITE

### PosterArtist Lite

Create your own eye-catching posters, banners, signages and flyers in just four steps. The intuitive interface allows anyone to design, choose the layout and print your desired visuals without specialised knowledge and skills.

## PRINT FROM ANYWHERE WITH CANON PRINT APP<sup>\*5</sup>

Simply connect your PIXMA printer with your smartphone or tablet to enjoy wireless printing and scanning from anywhere in your home or small office. Printing from multiple devices has never been easier.

## INKJET PRINTER

**Print all you want,  
as much as you want!**

The Canon PIXMA Inkjet printers are ideal for Home, Student, and Home Office Use.

Best for home assignments, self-publishing, office documents and photo printing.

Make home and home office printing a breeze with the PIXMA range of inkjet printers that come with features such as a refillable ink tank, high paper yield, user-replaceable print heads for smooth functioning, great speed and borderless photo printing.

## DISCLAIMER

While efforts have been made to provide accurate information, there could be printing errors, which may have crept in. In the event of any discrepancy, product operation instructions supplied with the product will be authentic reference point. Features, specifications, dimensions and prices mentioned in the leaflet, catalogues/brochures are subject to change without prior notice. The product images shown are for illustration purposes only and are not an exact representation of the product.

\*1 Warranty is subject to Terms & Conditions. For details, please visit <https://in.canon/en/consumer/web/warrantytermsandconditions>

### For All Inkjet Models:

\*2a Printing cost and the print yield for A4 paper (21.0x29.7 cm) of G series, visit <https://in.canon/en/consumer/web/terms-and-condition-for-g-series-printers>

The economy mode reduces the black ink consumption by lowering the density, up to 38% more prints than the standard mode can be printed. For G1010, G2010, G2012, G2020, G2021, G2060, G3000, G3010, G3012, G3020, G3021, G3060 and G4010 the quantity per black ink bottle is 135 ml and per colour bottle is 70 ml. For GM2070, G5070 and G6070 the quantity per black ink bottle is 170 ml and per colour bottle is 70 ml. For G570 and G670 the quantity per black ink bottle is 60ml and per colour bottle is 60 ml. For GX5070, GX5570, GX6070, GX6570, GX7070, GX3070, GX3072, GX4070 the page yield (A4 size) is based on the consumption data from the succeeding ink bottle but not the first ink bottle. Page yield is the estimated value based on Canon individual test method using the ISO/IEC 24712 chart under ideal print conditions & continuous printing simulation with the replacement after initial setup. Mentioned print yield is from the replacement set of 4 ink bottles (C/M/Y/BK) and not from the set of ink bottles provided inside the Printer box along with the Printer. Black bottle contains 170ml ink and each colour bottle contains 135ml of ink. Page yield varies significantly depending on contents printed and other factors.

Using non-genuine inks may affect the printer's performance and/or the print quality. In some rare occasions, although there are no safety issues, using non-genuine inks has caused overheating of the print head and smoke emission from the print head due to the absence of an ingredient found in genuine ink (does not apply to usage of all non-genuine inks). All Yields published as per data available for July 2018. 10%~15% deviation in Yields is within acceptable limits. Print Yields may differ for changes in coverage area, print patterns and print shades. All mentioned print Yields are taken for ideal print conditions as mentioned in the ISO documents. Document print speeds are the averages of ESAT in Office Category test for the default simplex mode, ISO/IEC 24734.

\*2b For G1737, G2770, G3770, G4770, G3780, G4780 the page yield (A4 size) is based on the consumption data from the succeeding ink bottle but not the first ink bottle. Page yield is the estimated value based on Canon individual test method using the ISO/IEC 24712 chart under ideal print conditions & continuous printing simulation with the replacement after initial setup. Mentioned print yield is from the replacement set of 4 ink bottles (C/M/Y/BK) and not from the set of ink bottles provided inside the Printer box along with the Printer. Black bottle contains 135ml ink and each colour bottle contains 70ml of ink. Page yield varies significantly depending on contents printed and other factors.

\*2c For G1730, G2730, G3730 the page yield (A4 size) is based on the consumption data from the succeeding ink bottle but not the first ink bottle. Page yield is the estimated value based on Canon individual test method using the ISO/IEC 24712 chart under ideal print conditions & continuous printing simulation with the replacement after initial setup. Mentioned print yield is from the replacement set of 4 ink bottles (C/M/Y/BK) and not from the set of ink bottles provided inside the Printer box along with the Printer. Black bottle contains 70ml ink and each colour bottle contains 40ml of ink. Page yield varies significantly depending on contents printed and other factors.

\*2d For G570, G670 the page yield (A4 size) is based on the consumption data from the succeeding ink bottle but not the first ink bottle under ideal print conditions & continuous printing simulation with the replacement after initial setup. Mentioned print yield is from the replacement set of 6 ink bottles (GY/C/M/Y/R/BK) and not from the set of ink bottles provided inside the Printer box along with the Printer. All ink bottles will have 60ml of ink each. Page yield varies significantly depending on contents printed and other factors.

\*3 Document print speeds are the averages of ESAT in Office Category test for the default simplex mode, ISO/IEC 24734 Photo Print Speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, print coverage, type of paper used etc.

PPM print speed is based on the highest speed settings using Canon standard patterns as described below on A4 plain paper.

\*4 Apple, etc. are registered trademarks of their respective owners.

\*5 Available on both Android and iOS.

\*6 Yield mentioned is using ISO/IEC 24712 test file and ISO/IEC 29102 (for 10.16x15.24 cm size) using ISO/IEC 29103 test file values obtained by continuously printing mixed text and graphics A4 (21.0 x 29.7 cm) Plain paper on default mode. Photo yield tested on 10.16x15.24 cm Standard/borderless mode on PP-201 using Canon Standard method referring to ISO/IEC 29102

\*7 Yield mentioned is as per ISO/IEC 24711. Values are obtained by continuously printing mixed text and graphics on A4 (21.0 x 29.7 cm) plain paper on default mode. Print Yield may vary depending on texts/photos printed, applications or software used, print mode, a combination of the ink tank/ink cartridge size and type of paper used. Using non-genuine inks may affect the printer's performance and/or the print quality. In some rare occasions, although there are no safety issues, using non-genuine inks has caused overheating of the print head and smoke emission from the print head due to the absence of an ingredient found in genuine ink (does not apply to usage of all non-genuine inks). All Yields published as per data available for July 2018. 10%~15% deviation in Yields is within acceptable limits. Print Yields may differ for changes in coverage area, print patterns and print shades. All mentioned print Yields are taken for ideal print conditions as mentioned in the ISO documents. Document print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734.

\*8 The page yield (A4 size) is based on the consumption data from the succeeding ink bottle but not the first ink bottle. Page yield is the estimated value based on Canon individual test method using the ISO/IEC 24712 chart under ideal print conditions & continuous printing simulation with the replacement after initial setup. Mentioned print yield is from the replacement set of 4-ink bottles (C/M/Y/BK). Black bottle contains 170ml ink and each colour bottle contains 135ml of ink. Page yield varies significantly depending on contents printed and other factors.

\*9 Tested under normal temperature and humidity, using fully-charged new battery, printing ISO/IEC 24712 files (5 patterns) continuously in colour on A4 plain paper in Standard mode of printer driver.

\*10 The page yield (A4 size) is based on the consumption data from the succeeding ink bottle but not the first ink bottle. Page yield is the estimated value based on Canon individual test method using the ISO/IEC 24712 chart under ideal print conditions & continuous printing simulation with the replacement after initial setup. Mentioned print yield is from the replacement set of 4-ink bottles (C/M/Y/BK). Black bottle contains 70ml ink and each colour bottle contains 40ml of ink. Page yield varies significantly depending on contents printed and other factors.

\*11 For ink cartridge, the declared yield value is in accordance with ISO/IEC 24711, using the ISO/IEC 24712 colour chart. Values obtained by continuous printing.

\*12 For G570, G670, G2730, G2770, G3730 and G3770 Warranty Offer Disclaimer: Offer valid from 15h April to 31st December, 2024 for select Canon Printers purchased between 15th April and 31st December, 2024(both days inclusive), for more details please refer to the T&C at <https://in.canon/en/consumer/web/warrantytermsandconditions>

---

#### **For All MAXIFY Models:**

An installed ink tank cannot be removed until the message to replace it is displayed. Print speed becomes slower for the sake of preventing damage to a print head when ink draws to an end (after displaying the ink low message). When scanning or copying a certain volume of documents continuously from the ADF, the printer may switch to 'waiting mode' in which paper feeding stops for several tens of seconds after each scan, in order to prohibit overheating of the paper feeding mechanism of the ADF. The timing of the 'waiting mode' may vary depending on scan settings, such as colour/mono, resolution and so on. In case of the default settings (scan or copy in colour, 300 dpi), the printer switches to 'waiting mode' after Approx. 80 A4 (21.0x29.7 cm) sheets of paper feeding continuously or repeatedly in short period.

#2 Print speed as per ISO/IEC 24734 in default mode.

#3 For GX6070 and GX7070 Warranty Offer Disclaimer: Offer valid from 15h April to 31st December, 2024 for select Canon Printers purchased between 15th April and 31st December, 2024(both days inclusive), for more details please refer to the T&C at <https://in.canon/en/consumer/web/warrantytermsandconditions>

---

#### **For All Laser Models:**

\*\*1 Monthly Duty Cycle value provides a means of comparison for product robustness in relation to other Canon laser devices and does not refer to actual image output per month.

\*\*2 Toner cartridge yield is in accordance with ISO/IEC 19752.

\*\*3 Toner cartridge yield is in accordance with ISO/IEC 19798.

---

#### **E-Waste Rules:**

Canon India complies with the E-Waste (Management) Rules, 2022 and its amendments. This product is in accordance with the rule 16 pertaining to the Reduction in the use of hazardous substances (ROHS).

Once this product reaches to end of life, this product should not be disposed of with your regular household waste.
